The Tesla Design S - The Glow in Electric Cars

https://qulpi.com/Charlesettaexjv

Why is it that many electrical cars seem like they've been created by 5 year olds? The Gee Wiz, the Nice MyCar, the Sakura Maranello 4, all cars that would, without the perk of CGI, in shape quite conveniently into the next Pixar Cars Movie. Why? When electrical automobile designers wrap their sleeves and rest in front of a drawing board, do they instantly deteriorates to an age where plants seem like lollipops and sheep bear a striking resemblance to the clouds above them. Funky, ingenious, ground breaking layouts that are hardly ever practical. That was until the launch of the Tesla Version S.
