The Tesla Design S - The Glow in Electric Cars

https://mendel.cla.csulb.edu/archaeogeophysics/index.php?title=The_current_Trend_in_Vehicle_Market

Why is it that a lot of electric automobiles appear like they've been created by five year olds? The Gee Wiz, the Nice MyCar, the Sakura Maranello 4, all automobiles that would certainly, without the benefit of CGI, fit very easily into the following Pixar Cars Flick. Why? When electric vehicle developers roll up their sleeves and rest in front of a drawing board, do they instantly backslides to an age where plants appear like lollipops and sheep bear a striking similarity to the clouds over them. Funky, cutting-edge, ground damaging designs that are seldom functional. That was up until the launch of the Tesla Design S.
