Why is it that the majority of electric automobiles resemble they've been developed by 5 year olds? The Gee Wiz, the Nice MyCar, the Sakura Maranello 4, all automobiles that would certainly, without the advantage of CGI, in shape quite conveniently into the following Pixar Cars Film. Why? When electric automobile designers wrap their sleeves and sit in front of a drawing board, do they unexpectedly deteriorates to an age where plants resemble lollipops and sheep bear a striking similarity to the clouds above them. Funky, innovative, ground cracking designs that are rarely practical. That was till the launch of the Tesla Version S.
