How To Clean Tile Floors

https://www.professional-carpet-cleaning.net/best-way-to-clean-tile-floors.html

Once the tile surface and grout are clean to your satisfaction, then you can take a penetrating type sealer for applying over ceramic tile and apply it to their surface. Tile and grout sealers help prevent staining and help make it easier to clean dirty tile and grout. Never use muriatic acid for anything to do with a tile, let alone for trying to remove epoxy film.
