### Keeping your gadgets safe in the sun

<https://newestgadgetsinfo.com/topgadgets/>

Thanks to their portability, a lot of smartphones and tablets will log time near the sun and sand this summer, but a day at the beach or pool can pose some hazards for gadgets. Also keep devices out of direct sunlight, they can easily overheat. Don't leave them in the car either, it's best to keep that device with you, and in the shade.
