What is a Forex Trading Strategy

https://www.docdroid.net/crm8/the-anatomy-of-a-forex-trading-system.pdf.html

A foreign exchange trading strategy is generally regarded to be a set of trading guidelines that management when and at which cost you open up and close the currency trade. A strategy is basically a prepare or set of guidelines of when to buy and offer currency (Charles D. Kirkpatrick, Julier R. Dahlquist. Complex Examination). An case in point of a rule would be buy when a moving regular crosses earlier mentioned another.
