signage solutions

<https://amrock.in>

AMROCK is an engineering solution provider company practising professionally with national and international working standards. Established in June 2009 AMROCK is serving the EPC (Engineering procurement and Construction) Project for Electrical and Mechanical Engineering and signage systems. In past 5 years of time AMROCK has grown more than 5 times in the national and international market thereby establishing their first subsidiary in South Africa to showcase their product and service portfolios and being one for the suppliers to American and European market. With a working motto of "DO MORE WITH LESS", We promise to provide solutions right from the designing step to the complete installation and upend running step.
