Things to Consider Before Presenting Your Invention Idea to Investors

https://www.business.com/business-opportunities/things-to-consider-before-presenting-your-idea-to-investors/

To create the business plan, you will need to gather, evaluate and analyze all relative and relevant information available out there in a structured way. This will be a good exercise for you as an inventor or entrepreneur too as you will be looking into the different aspects of the proposed business.
