Elon Musk And Artificial Intelligence

<https://www.forbes.com/sites/haroldstark/2017/05/16/elon-musk-and-artificial-intelligence-share-a-tumultuous-relationship/>

The proposed idea of a neural network connecting human beings to the internet is indeed an interesting one. As an organization that helps inventors reach out to companies each day, we are very happy to see Silicon Valley come up with something so futuristic and mind-bending.

The proposed idea of a neural network connecting human beings to the internet is indeed an interesting one. As an organization that helps inventors reach out to companies each day, we are very happy to see Silicon Valley come up with something so futuristic and mind-bending.
