exponential growth

<https://www.youtube.com/watch?v=IqLELspOa7g&t=4s>

What exactly is exponential growth? Growth-through-multiplying. Think about greenback costs. For those who have some money and you double that, you've got two dollars. Double two dollars, and then you possess four money. Several becomes 8, 8 gets 07, and so on. This method of growing is termed exponential growth.
